Subject: RE: PM / ABF Analytisch-biologisches Forschungslabor GmbH (Scherer) - Project Agreement for Sample Analysis
DSS: No

Regarding the question in attachment A - duplicate analysis in this context means that each sample aliquot received by Scherer is separated into two parts and each of the two parts is analyzed. The results of both are then compared to confirm the precision of the assay.

Subject: PM / ABF Analytisch-biologisches Forschungslabor GmbH (Scherer) - Project Agreement for Sample Analysis

Loreen:

Attached please find the clean and blackline of Scherer #8 based on WSA comments. You will see that there is a question in Attachment A. If you agree with all of the changes, please distribute this agreement to finance and purchasing for review. Please let me know if you have any questions.

Thanks.
